ECORACER

SPEED, ENDURANCE, STRENGTH AND POWER

Your body will be the only limit to speed!
A treadmill that is exclusive in the design and unique in its performance. Panatta presents the widest running surface of its category that is curve-shaped and made of rubberised slats for a more comfortable use. Ideal for each kind of athlete since it allows a dynamic workout aimed to train speed, endurance, as well as strength and power. Particularly suggested for HIIT (high intensity interval training). The natural configuration of the curve improves different skills: cardio and muscular endurance, speed, coordination, power and balance.
